

MINE-SAFE WHEEL NUTS

Technical data sheet

Mine-Safe Wheel Nuts

For Landcruiser 70 Series Steel Rims

Part Number: HMS2WN-LC70E

Suit Generation: 70 Series [2014 .. 2027]	Length of thread: 17mm
Bolt Pattern (PCD): 5x150	Length of Nylon: 10.6mm
Wheel Fasteners: Wheel nuts	Overall Length: 29mm
Thread Size: M14 x 1.5	Socket Size: Hex 22mm
Nut Style: Nyloc Acorn Taper - 60°	Nut Tensioning Torque: 209 Nm

Torque Mine-Safe Wheel nuts using a properly calibrated torque wrench to OEM torque specifications (209 nm). See installation Instructions.

Mine-Safe Wheel Nuts have been developed for use with OEM Steel Rims. If after-market rims are being used, we recommend using Mine-Safe Wheel Studs which have extra length, ensuring complete nylon coverage.

Mine-Safe Wheel Stud Part Number: HMS6WS-LC70

PATENT: 2020103951
